Thank you for participating in the city-survey. What happens to your contribution? Currently the city-survey is on. With it we hope to gather various opinions about the strengths, weaknesses and the development potential of Hamelin.

In autumn there will be a workshop over multiple days. There the results of the survey will be discussed and developed. In spring 2017 these results will be presented during a conference concerned with Hamelin's future.

You can find more information and possibilities to participate under: 2030.hameln.de
